

HOW WE CAN HELP

Families contact us when

- ☐ A parent is moving into a residence and the family home is being sold.
- ☐ An estate must be settled by a fixed date.
- ☐ They are downsizing and want a lifetime of belongings placed with people who will value them.
- ☐ Family members live at a distance and cannot manage weeks of sorting.

OUR FEES

There is no upfront cost. Our fee is a percentage of sale proceeds, agreed in writing before work begins. Research, photography, staffing and marketing are included.

Where a full clearance of the property is requested, it is quoted in advance.

BEGIN WITH AN ASSESSMENT

Complimentary, and without obligation

We visit the property, review the contents, and give you a candid assessment of what has value. You receive a written proposal whether or not you decide to proceed.

COMPLIMENTARY IN-HOME ASSESSMENT

(647) 880-8606

OUR PROCESS

Four steps, from first visit to final handover

1 Assessment

We visit the property with you, identify what has value, and provide a written proposal. Complimentary and unhurried.

2 Your selections

Photographs, documents and the pieces the family wishes to keep are set aside. Nothing leaves the home without your approval.

3 Preparation and sale

Our team sorts, researches, prices and sells. Cataloguing, photography, staffing and marketing are handled for you; your presence is not required.

4 Settlement and clearance

You receive an itemised statement and payment. Remaining contents are donated or removed, and the property is returned to you on the agreed date.

THREE WAYS TO SELL

We advise. You decide.

ON SITE

Estate sale

The home is opened to the public over one or more days, with every item priced and our staff on site. Suited to a full household that must be sold promptly.

ONLINE

Timed auction

Each piece is photographed, catalogued and offered to bidders across Ontario, closing on a fixed date. Suited to fine furniture, art, silver, jewellery and collections, and to properties that cannot be opened to the public.

RETAIL

Fixed-price shop

Individual pieces offered at a set price through our Bowmanville shop and website, with shipping across Canada and the United States. Suited to items without a deadline.

Most estates use a combination. The assessment determines which pieces are best suited to each.

WHAT WE MANAGE

Every item, from the first room to the final handover

- Sorting of every room, storage space and outbuilding
- Research and informed pricing of antiques, art, silver and jewellery
- Photography, catalogue descriptions and marketing to our buyers
- Staffed sale days and secure payment handling
- Transport of pieces to our warehouse for auction or retail
- Donation and removal of remaining contents on your schedule
- An itemised statement of every item sold and its price

KEEPING WHAT MATTERS

Items identified by the family are set aside before any sale begins. We would rather retain a piece than sell one you intended to keep.
